### **SEC. 101. PAYMENTS TO ELIGIBLE PRODUCERS.**

(a) **PAYMENTS REQUIRED.**—Beginning with the 2002 crop of covered commodities, the Secretary shall make fixed decoupled payments and counter-cyclical payments under this subtitle—

(1) to producers on a farm that were parties to a production flexibility contract under section 111 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7211) for fiscal year 2002; and

(2) to other producers on farms in the United States as described in section 103(a).

(c) **SHARING OF PAYMENTS.**—The Secretary shall provide for the sharing of fixed, decoupled payments and counter-cyclical payments among the eligible producers on a farm on a fair and equitable basis.

### **SEC. 102. ESTABLISHMENT OF PAYMENT YIELD.**

(a) **ESTABLISHMENT AND PURPOSE.**—For the purpose of making fixed decoupled payments and counter-cyclical payments under this subtitle, the Secretary shall provide for the establishment of a payment yield for each farm for each covered commodity in accordance with this section.

(b) **USE OF FARM PROGRAM PAYMENT YIELD.**—Except as otherwise provided in this section, the payment yield for each of the 2002 through 2011 crops of a covered commodity for a farm shall be the farm program payment yield in effect for the 2002 crop of the covered commodity under section 505 of the Agricultural Act of 1949 (7 U.S.C. 1465).

(c) **FARMS WITHOUT FARM PROGRAM PAYMENT YIELD.**—In the case of a farm for which a farm program payment yield is unavailable for a covered commodity (other than soybeans or other oilseeds), the Secretary shall establish an appropriate payment yield for the covered commodity on the farm taking in consideration the farm program payment yields applicable to the commodity under subsection (b) for similar farms in the area.

(d) **PAYMENT YIELDS FOR OILSEEDS.**—

(1) AVERAGE YIELD.—In the case of soybeans and each other oilseed, the Secretary shall establish a payment yield for a farm for the oilseed by first determining the average yield for the oilseed on the farm for the 1998 through 2001 crop years, excluding any crop year in which the acreage planted to the oilseed was zero. If, for any of these four crop years in which the oilseed was planted, the farm would have satisfied the eligibility criteria established to carry out section 1102 of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 1999 (Public Law 105-277; 7 U.S.C. 1421 note), the Secretary shall assign a yield for that year equal to 65 percent of the county yield.

(2) REDUCTION.—The Secretary shall reduce the average yield determined under paragraph (1) for the oilseed by a percentage equal to the percentage increase in national average yields for the oilseed between the following two periods:

- (A) The 1981 through 1985 crops.
- (B) The 1998 through 2001 crops.

**SEC. 103. ESTABLISHMENT OF BASE ACRES AND PAYMENT ACRES FOR A FARM.**

(a) ELECTION BY PRODUCERS OF BASE ACRE CALCULATION METHOD.—For the purpose of making fixed decoupled payments and counter-cyclical payments with respect to a farm, the Secretary shall give producers on the farm an opportunity to elect one of the following as the method by which the base acres of all covered commodities on the farm are to be determined:

(1) The four-year average of acreage actually planted on the farm to a covered commodity for harvest, grazing, haying, silage, or other similar purposes during crop years 1998, 1999, 2000, and 2001 and any acreage on the farm that the producers were prevented from planting during such crop years to the covered commodity because of drought, flood, or other natural disaster, or other condition beyond the control of the producer, as determined by the Secretary.

(2) The contract acreage (as defined in section 102 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7202)) used by the Secretary to calculate the fiscal year 2002 payment that, subject to section 109, would be made under section 114 of such Act (7 U.S.C. 7214) for the covered commodity on the farm.

(b) SINGLE ELECTION; TIME FOR ELECTION.—The opportunity to make the election described in subsection (a) shall be available to producers on a farm only once. The producers shall notify the Secretary of the election made by the producers under such subsection not later than 180 days after the date of the enactment of this Act.

(c) EFFECT OF FAILURE TO MAKE ELECTION.—If the producers on a farm fail to make the election under subsection (a), or fail to timely notify the Secretary of the selected option as required by subsection (b), the producers shall be deemed to have made the election described in subsection (a)(2) to determine base acres for all covered commodities on the farm.

(d) APPLICATION OF ELECTION TO ALL COVERED COMMODITIES.—The election made under subsection (a) or deemed to be made under subsection (c) with respect to a farm shall apply to all of the covered commodities on the farm. Producers may not make the election described in subsection (a)(1) for one covered commodity and the election described in subsection (a)(2) for other covered commodities on the farm.

(e) TREATMENT OF CONSERVATION RESERVE CONTRACT ACREAGE.—

(1) IN GENERAL.—In the case of producers on a farm that make the election described in subsection (a)(2), the Secretary shall provide for an adjustment in the base acres for the farm whenever either of the following circumstances occur:

(A) A conservation reserve contract entered into under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831) with respect to the farm expires or is voluntarily terminated.

(B) Cropland is released from coverage under a conservation reserve contract by the Secretary.

(2) SPECIAL PAYMENT RULES.—For the fiscal year and crop year in which a base acre adjustment under paragraph (1) is first made, the producers on the farm shall elect to receive either fixed decoupled payments and counter-cyclical payments with respect to the acreage added to the farm under this subsection or a prorated payment under the conservation reserve contract, but not both.

(f) PAYMENT ACRES.—The payment acres for a covered commodity on a farm shall be equal to 85 percent of the base acres for the commodity.

(g) PREVENTION OF EXCESS PAYMENT ACRES.—

(1) **REQUIRED REDUCTION.**—If the sum of the base acres for a farm, together with the acreage described in paragraph (2), exceeds the actual cropland acreage of the farm, the Secretary shall reduce the quantity of base acres for one or more covered commodities for the farm or peanut acres for the farm as necessary so that the sum of the base acres and acreage described in paragraph (2) does not exceed the actual cropland acreage of the farm. The Secretary shall give the producers on the farm the opportunity to select the base acres or peanut acres against which the reduction will be made.

(2) **OTHER ACREAGE.**—For purposes of paragraph (1), the Secretary shall include the following:

(A) Any peanut acres for the farm under chapter 3 of subtitle C.

(B) Any acreage on the farm enrolled in the conservation reserve program or wetlands reserve program under chapter 1 of subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

(C) Any other acreage on the farm enrolled in a conservation program for which payments are made in exchange for not producing an agricultural commodity on the acreage.

#### **SEC. 104. AVAILABILITY OF FIXED, DECOUPLED PAYMENTS.**

(a) **PAYMENT REQUIRED.**—For each of the 2002 through 2011 crop years of each covered commodity, the Secretary shall make fixed, decoupled payments to eligible producers.

(b) **PAYMENT RATE.**—The payment rates used to make fixed, decoupled payments with respect to covered commodities for a crop year are as follows:

- (1) Wheat, \$0.53 per bushel.
- (2) Corn, \$0.30 per bushel.
- (3) Grain sorghum, \$0.36 per bushel.
- (4) Barley, \$0.25 per bushel.
- (5) Oats, \$0.025 per bushel.

acreage planted to peanuts was zero. If, for any of these four crop years in which peanuts were planted, the farm would have satisfied the eligibility criteria established to carry out section 1102 of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 1999 (7 U.S.C. 1421 note; Public Law 105-277), the Secretary shall assign a yield for that year equal to 65 percent of the county yield, as determined by the Secretary.

The selected date shall be on or after December 1 of that fiscal year, and the producer may change the selected date for a subsequent fiscal year by providing advance notice to the Secretary.

(3) REPAYMENT OF ADVANCE PAYMENTS.—If a producer that receives an advance fixed, decoupled payment for a fiscal year ceases to be an eligible peanut producer before the date the fixed, decoupled payment would otherwise have been made by the Secretary under paragraph (1), the producer shall be responsible for repaying the Secretary the full amount of the advance payment.

(b) EFFECT OF FORECLOSURE.—A producer may not be required to make repayments to the Secretary of fixed, decoupled payments and counter-cyclical payments if the farm has been foreclosed on and the Secretary determines that forgiving the repayments is appropriate to provide fair and equitable treatment. This subsection shall not void the responsibilities of the producer under subsection (a) if the producer continues or resumes operation, or control, of the farm. On the resumption of operation or control over the farm by the producer, the requirements of subsection (a) in effect on the date of the foreclosure shall apply.

(c) TRANSFER OR CHANGE OF INTEREST IN FARM.—

(1) TERMINATION.—Except as provided in paragraph (4), a transfer of (or change in) the interest of a producer in peanut acres for which fixed, decoupled payments or counter-cyclical payments are made shall result in the termination of the payments with respect to the peanut acres, unless the transferee or owner of the acreage agrees to assume all obligations under subsection (a). The termination shall be effective on the date of the transfer or change.

(2) TRANSFER OF PAYMENT BASE.—There is no restriction on the transfer of a farm's peanut acres or payment yield as part of a change in the producers on the farm.

(C) by a producer who the Secretary determines has an established planting history of a specific fruit or vegetable, except that—

(i) the quantity planted may not exceed the producer's average annual planting history of the fruit or vegetable in the 1991 through 1995 crop years (excluding any crop year in which no plantings were made), as determined by the Secretary; and

## TITLE VIII—FORESTRY INITIATIVES

### SEC. 801. REPEAL OF FORESTRY INCENTIVES PROGRAM AND STEWARDSHIP INCENTIVE PROGRAM.

The Cooperative Forestry Assistance Act of 1978 is amended by striking section 4 (16 U.S.C. 2103) and section 6 (16 U.S.C. 2103b).

### SEC. 802. ESTABLISHMENT OF FOREST LAND ENHANCEMENT PROGRAM.

(a) FINDINGS.—Congress finds the following:

(1) There is a growing dependence on private nonindustrial forest lands to supply the necessary market commodities and nonmarket values, such as habitat for fish and wildlife, aesthetics, outdoor recreation opportunities, and other forest resources, required by a growing population.

(2) There is a strong demand for expanded assistance programs for owners of nonindustrial private forest land since the majority of the wood supply of the United States comes from nonindustrial private forest land.

(3) The soil, carbon stores, water and air quality of the United States can be maintained and improved through good stewardship of nonindustrial private forest lands.

(4) The products and services resulting from stewardship of nonindustrial private forest lands provide income and employment that contribute to the economic health and diversity of rural communities.

(5) Wildfires threaten human lives, property, forests, and other resources, and Federal and State cooperation in forest fire prevention and control has proven effective and valuable, in that properly managed forest stands are less susceptible to catastrophic fire, as dramatized by the catastrophic fire seasons of 1998 and 2000.

(6) Owners of private nonindustrial forest lands are being faced with increased pressure to convert their forestland to development and other uses.

(7) Complex, long-rotation forest investments, including sustainable hardwood management, are often the most difficult commitment for small, nonindustrial private forest landowners and, thus, should receive equal consideration under cost-share programs.

(8) The investment of one Federal dollar in State and private forestry programs is estimated to leverage \$9 on average from State, local, and private sources.

(b) PURPOSE.—It is the purpose of this section to strengthen the commitment of the Department of Agriculture to sustainable forestry and to establish a coordinated and cooperative Federal, State, and local sustainable forest program for the establishment, management, maintenance, enhancement, and restoration of forests on nonindustrial private forest lands in the United States.

(c) FOREST LAND ENHANCEMENT PROGRAM.—The Cooperative Forestry Assistance Act of 1978 is amended by inserting after section 3 (16 U.S.C. 2102) the following new section 4:

#### “SEC. 4. FOREST LAND ENHANCEMENT PROGRAM.

“(1) Investment in practices to establish, restore, protect, manage, maintain, and enhance the health and productivity of the nonindustrial private forest lands in the United States for timber, habitat for flora and fauna, water quality, and wetlands.

“(2) Ensuring that afforestation, reforestation, improvement of poorly stocked stands, timber stand improvement, practices necessary to improve seedling growth and survival, and growth enhancement practices occur where needed to enhance and sustain the long-term productivity of timber and nontimber forest resources to help meet future public demand for all forest resources and provide environmental benefits.

“(3) Reduce the risks and help restore, recover, and mitigate the damage to forests caused by fire, insects, invasive species, disease, and damaging weather.

“(4) Increase and enhance carbon sequestration opportunities.

“(2) RATE.—The Secretary shall determine the appropriate reimbursement rate for cost-share payments under paragraph (1) and the schedule for making such payments.

“(3) MAXIMUM.—The Secretary shall not make cost-share payments under this subsection to an owner in an amount in excess of 75 percent of the total cost, or a lower percentage as determined by the State forester, to such owner for implementing the practices under an approved plan. The maximum payments to any one owner shall be determined by the Secretary.

“(4) CONSULTATION.—The Secretary shall make determinations under this subsection in consultation with the State forester.

“(g) RECAPTURE.—

“(1) IN GENERAL.—The Secretary shall establish and implement a mechanism to recapture payments made to an owner in the event that the owner fails to implement any approved activity specified in the individual stewardship, forest, or stand management plan for which such owner received cost-share payments.

“(4) the opportunities to enhance non-timber resources on such forest lands;

“(5) the anticipated demand for timber and nontimber resources in each State;

“(6) the need to improve forest health to minimize the damaging effects of catastrophic fire, insects, disease, or weather; and

“(7) the need and demand for agroforestry practices in each State.

“(i) DEFINITIONS.—In this section:

“(1) NONINDUSTRIAL PRIVATE FOREST LANDS.—The term ‘nonindustrial private forest lands’ means rural lands, as determined by the Secretary, that—

“(A) have existing tree cover or are suitable for growing trees; and

“(B) are owned or controlled by any nonindustrial private individual, group, association, corporation, Indian tribe, or other private legal entity (other than a nonprofit private legal entity) so long as the individual, group, association, corporation, tribe, or entity has definitive decision-making authority over the lands, including through long-term leases and other land tenure systems, for a period of time long enough to ensure compliance with the Program.

“(2) OWNER.—The term ‘owner’ includes a private individual, group, association, corporation, Indian tribe, or other private legal entity (other than a nonprofit private legal entity) that has definitive decision-making authority over nonindustrial private forest lands through a long-term lease or other land tenure systems.

- (1) The severity and intensity of wildland fires has increased dramatically over the past few decades as a result of past fire and land management policies.
- (2) The record 2000 fire season is a prime example of what can be expected if action is not taken.
- (3) These wildfires threaten not only the nation’s forested resources, but the thousands of communities intermingled with the wildlands in the wildland-urban interface.
- (4) The National Fire Plan developed in response to the 2000 fire season is the proper, coordinated, and most effective means to address this wildfire issue.
- (5) Whereas adequate authorities exist to tackle the wildfire issues at the landscape level on Federal lands, there is limited authority to take action on most private lands where the largest threat to life and property lies.
- (6) There is a significant Federal interest in enhancing community protection from wildfire.

(b) ENHANCED PROTECTION.—The Cooperative Forestry Assistance Act of 1978 is amended by inserting after section 10 (16 U.S.C. 2106) the following new section:

(a) **FINDINGS.**—Congress finds the following:

F:\V7\123199\123199.0F1

(1) The damages caused by wildfire disasters have been equivalent in magnitude to the damage resulting from the Northridge earthquake, Hurricane Andrew, and the recent flooding of the Mississippi River and the Red River.

(2) More than 20,000 communities in the United States are at risk to wildfire and approximately 11,000 of these communities are located near Federal lands. More than 72,000,000 acres of National Forest System lands and 57,000,000 acres of lands managed by the Secretary of the Interior are at risk of catastrophic fire in the near future. The accumulation of heavy forest fuel loads continues to increase as a result of disease, insect infestations, and drought, further raising the risk of fire each year.

(3) Modification of forest fuel load conditions through the removal of hazardous fuels will minimize catastrophic damage from wildfires, reducing the need for emergency funding to respond to wildfires and protecting lives, communities, watersheds, and wildlife habitat.

(4) The hazardous fuels removed from forest lands represent an abundant renewable resource as well as a significant supply of biomass for biomass-to-energy facilities.

(b) **HAZARDOUS FUELS TO ENERGY GRANT PROGRAM.**—The Secretary concerned may make a grant to a person that operates a biomass-to-energy facility to offset the costs incurred to purchase hazardous fuels from forest lands for use by the facility in the production of electric energy, useful heat, or transportation fuels. The Secretary concerned shall select grant recipients on the basis of their planned purchases of hazardous fuels and the level of anticipated benefits to reduced wildfire risk.

(c) **GRANT AMOUNTS.**—A grant under this section shall be equal to at least \$5 per ton of hazardous fuels delivered, but not to exceed \$10 per ton of hazardous fuels delivered, based on the distance of the hazardous fuels from the biomass-to-energy facility.

(d) **MONITORING OF GRANT RECIPIENT ACTIVITIES.**—As a condition on a grant under this section, the grant recipient shall keep such records as the Secretary concerned may require to fully and correctly disclose the use of the grant funds and all transactions involved in the purchase of hazardous fuels derived from forest lands. Upon notice by a duly authorized representative of the Secretary concerned, the operator of a biomass-to-energy facility that purchases or uses the resulting hazardous fuels shall afford the representative reasonable access to the facility and an opportunity to examine the inventory and records of the facility.

(e) **MONITORING OF EFFECT OF TREATMENTS.**—The Secretary concerned shall monitor Federal lands from which hazardous fuels are removed and sold to a biomass-to-energy facility to determine and document the reduction in fire hazards on such lands.

(f) **DEFINITIONS.**—In this section:

(1) **BIOMASS-TO-ENERGY FACILITY.**—The term “biomass-to-energy facility” means a facility that uses forest biomass as a raw material to produce electric energy, useful heat, or transportation fuels.

(2) **FOREST BIOMASS.**—The term “forest biomass” means hazardous fuels and biomass accumulations from precommercial thinnings, slash, and brush on forest lands that do not satisfy the definition of hazardous fuels.

(3) **HAZARDOUS FUELS.**—The term “hazardous fuels” means any unnaturally excessive accumulation of organic material, particularly in areas designated as condition class 2 or condition class 3 (as defined in the report entitled “Protecting People and Sustainable Resources in Fire-Adapted Ecosystems”, prepared by the Forest Service, and dated October 13, 2000), on forest lands that the Secretary concerned determines poses a substantial present or potential hazard to forest ecosystems, wildlife, human, community, or firefighter safety in the case of a wildfire, particularly a wildfire in a drought year.

(4) **SECRETARY CONCERNED.**—The term “Secretary concerned” means—

(A) the Secretary of Agriculture or the designee of the Secretary of Agriculture with respect to the National Forest System lands and private lands; and

(B) the Secretary of the Interior or the designee of the Secretary of the Interior with respect to Federal lands under the jurisdiction of the Secretary of the Interior and Indian lands.

(g) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$50,000,000 for each fiscal year to carry out this section.

#### **SEC. 922. BIOENERGY PROGRAM.**

Notwithstanding any limitations in the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.) or part 1424 of title 7, Code of Federal Regulations, the

(a) **ESTABLISHMENT.**—For each of the fiscal years 2002 through 2011, the Secretary of Agriculture shall use \$15,000,000 of the funds available to the Commodity Credit Corporation to carry out and expand a seniors farmers' market nutrition program.

(b) **PROGRAM PURPOSES.**— The purposes of the seniors farmers' market nutrition program are—
